#### DETAILED ACTION

1. Claims 1-23 are presented for examination.
2. Claims 20-23 were cancelled on amendment filed 11/24/2008.

#### *Allowable Subject Matter*

1. Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance:

As to claims 1, and 9 the prior arts of record taken alone or in combination with any other references fail to teach or suggest the claimed method of determining an effective **refractive index** as a **function** of the **periodicity** of the reflectance spectrum; determining a **periodicity** of a **swing curve** of the resist film coated on the second substrate based on the effective **refractive index**; is not rendered obvious by prior arts, the closest reference of record Schiltz does teach measuring the refractive index of the substrates but does not disclose correlating the refractive index to periodicity of the reflectance spectrum. Additionally Schiltz did not each determining the periodicity of the swing curve and only calculated the amplitude of the swing curves being evaluated.

As to claim 14, the prior arts of record taken alone or in combination with any other references fail to teach or suggest the claimed method of determining a first and a second effective refractive index at the actinic wavelength based on the **fitted sinusoidal components** of the first and the second UV **reflectance spectrum**; determining **minima** and **maxima** of a first and a second swing curve using the first and the second effective refractive index, respectively; and **determining corrected minima**

**and maxima by averaging the minima and maxima of the first and the second swing curve** in combination with the rest of the elements of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
